## Facility Planning Task Force Application

The Le Sueur-Henderson Facility Planning Task Force will be meeting this fall to explore long-term facility options for our school district. This team will begin the work on possible referendum options from a scope and cost standpoint. While the School Board will have many factors to consider, the Board is particularly interested in the perspective and recommendation from a broad and diverse group of community members. If you are interested in serving on this task force, you should be able to commit to attending all meetings in their entirety (meeting dates are listed below). Please understand that we would like a representative sample of our community on the task force and therefore not everyone may be able to participate. All meetings of the task force will be open to the public and we are exploring other ways to gain public input in the process. This public input will be important for those who are not selected for the task force or cannot commit to all the meetings. If you wish to apply, applications will be due by *Thursday, September 5, 2019 by 4:00 p.m. at the District Office.*
